

## **Entrepreneurs Request Urgent Reforms**

[P.08] MOSTAR – Principal Deputy High Representative, Donald Hays yesterday in Mostar held a meeting with Bulldozer emergency reform units from FBiH, RS and Brcko District. Cantonal ministers of economy and several businesspeople also attended the meeting. Hays already had the same discussions in Sarajevo and Banja Luka. Goal of these discussions is to find a way to expand the role of ERUs in this process, and increase of their effectiveness. Bulldozer emergency reform units are mediators in the dialogue between governments and entrepreneurs i.e. private sector. Their members lobby within the governments in favor of entrepreneurs' initiatives.

“I am glad because in most cases, ministers have already accepted this as reality. I also call on others in government bodies to recognize importance of these units”, Deputy High Representative, Donald Hays said.

Entrepreneurs see the lack of a single economic space as one of the biggest business roadblocks. However, thanks to the Bulldozer initiative, certain progress has been made, entrepreneurs conclude.
